

Prescription Diet® y/d™ Feline Thyroid Health

Prescription Diet y/d is the safe, effective and easy way to manage thyroid health. Clinically proven nutrition could help to restore thyroid health in 3 weeks.

Key Benefits

Easy. Effective. Safe.

Clinically proven nutrition to restore thyroid health

Improves thyroid health in 3 weeks* (when fed as the sole source of nutrition)

Complete daily nutrition with a taste your cat will love

Additional Info

Additional benefits for overall health

Supports kidney health with controlled phosphorus and low sodium

Helps maintain bladder health with controlled mineral levels

Promotes heart health with essential nutrients like taurine and carnitine

Promotes healthy skin and a luxurious hair coat with high levels of omega-3 and -6 fatty acids

IMPORTANT

Because iodine intake from other food sources -- treats, another pet's food, etc. -- can compromise the effectiveness of low-iodine nutrition, it's critical that you follow your veterinarian's feeding instructions carefully and feed only y/d.

Feeding Guide

Daily Feeding Guide:

Important Feeding Information

- Cover and refrigerate unused portion.
- **These amounts are a starting point only. Your cat may need less or more food to maintain proper weight. Adjust as needed. If you are unsure, ask your veterinarian.**
- With your veterinarian's approval, mix increasing amounts of your cat's new food with decreasing amounts of the old food over a 7-day period.
- Prescription Diet® formulas are available in a wide variety of dry foods and treats for your cat's unique needs, and canned foods with delicious flavors your cat will love. Supplementation with other foods or treats is unnecessary and may decrease the effectiveness of the food. When using with dry food, decrease the amount of canned food to avoid overfeeding.
- **Keep fresh water available at all times!**
- For best results, have your veterinarian monitor your cat's condition.

Adult maintenance - using 5.5 oz (156 g) can

Weight of Cat	Amount per Day
6 lb (2,7 kg)	3/4 - 1 can
10 lb (4,5 kg)	1 1/4 - 1 2/3 can
14 lb (6,4 kg)	1 1/2 - 2 can
18 lb (8,2 kg)	1 3/4 - 2 1/2 can

Average Nutrient And Caloric Contents

Canned 1207 kcal/kg (188.292 kcal/per 156g can)
